

Recumbent Cycle G575R

SportsArt ECO-POWR™ cycles are part of our green technology product line with integrated micro-inverters built in, and the first of its kind to harness the power of human energy and put it back into the grid. When plugged into a power outlet the human energy generated converts to utility-grade electricity, offsetting significant savings for the club owner.

- ECO-POWR™ Integrated Inverter
- ComfortDri™ vented padded seat back allows for airflow throughout the workout and is molded to provide ultimate support
- Convenient seat adjustment handles are easy to reach while exercising
- Adjustable seat back provides extra comfort for any exercise position
- Oversized pedals feature quick strap adjustment for easy customization
