EXERCISE BANDS

Some users will benefit from using exercise bands with this bench. There are two hooks located at the rear of the bench near the transport wheels for use with exercise bands. Make sure any exercise bands used are in good working condition and properly secured to the bench before doing any exercise.

RESISTANCE TRAINING BENEFITS AND TIPS

Always consult a physician before starting an exercise program. To be successful in your exercise program, it is important to develop an understanding of the basic principles of resistance training. Now that you have assembled your Spirit Fitness bench, it is only natural that you want to get started immediately. First, determine a few realistic, short term goals and expectations for yourself. Choose an appropriate exercise routine that best suits your individual needs.

- Warm up properly before engaging in resistance training. Stretching, yoga, jogging, calisthenics, or other cardiovascular exercise can help prepare your body for the heavier workload of lifting weights.
- Learn how to perform the exercise correctly before using heavy weight. Correct form is important to avoid injury and ensure that you work the proper muscle groups.
- Know your limitations. If you are new to resistance training or are starting back, after an extended layoff, start slowly and build foundational strength over a longer period of time.
- Pay attention to your breathing. As a general rule of thumb: inhale on the non-exertion part of the movement and exhale during the exertion portion. Never hold your breath.
- Keep in mind how important the recovery phase is in achieving your goals. The general rule is to allow a minimum of 48-72 hours before training the same muscles. If you still experience soreness after this period of time has elapsed, take a few additional days until the soreness has subsided.
- To achieve maximum results and avoid possible injury, consult a fitness professional to formulate a complete exercise program.

GENERAL MAINTENANCE

Wipe down all areas in the sweat path with a damp cloth after each workout. If a squeak, thump, clicking or For best performance, Spirit recommends the following maintenance schedule. Check the integrity and function of the following parts. Replace all worn components immediately.

ROUTINE	COMMERCIAL	HOME	LATEST DATE ENTRY
Clean: Upholstery	Daily	Weekly	
Inspect: All Decals	Weekly	3 Months	
Inspect: All Nuts and Bolts, Tighten if needed	Weekly	3 Months

SANITIZING YOUR SPIRIT FITNESS EQUIPMENT

- Unupholstered high-contact surfaces (hard plastics) can be sanitized using a 75% isopropyl alcohol solution and a clean, dry cloth. Spray surfaces to be sanitized, and use the dry cloth to wipe clean. Allow surfaces to dry before using.
- For upholstered or soft-plastic surfaces, use a conditioner after sanitizing. Be sure to follow the instructions provided by the conditioner manufacturer to ensure proper use of the conditioner.
- Alternatively, you can make your own spray by mixing the proper ratio of isopropyl alcohol and distilled water to reach a 75% solution.
