

C770 HYPER EXTENSION

The BODYCRAFT C770 Commercial Hyper Extension upgrades our legendary F770 design to match the rugged durability and premium aesthetics of our full commercial bench lineup. Built for high-traffic facilities and premium home gyms, it features upgraded, wear-resistant upholstery and a new gas-shock assisted mechanism for effortless, 6-position height adjustments. Complete with built-in weight plate storage and integrated transport wheels for easy mobility, the C770 delivers elite, space-saving posterior chain and core training with commercial-grade simplicity.
