- ▶ Schwinn Fit system enables a wide range of seat and handlebar adjustments to provide safe and comfortable setup for a wide range of riders

Carbon Blue™

Several years ago, a company named Gates introduced a concept never before seen on outdoor bikes – a belt drive that performed like a chain. Their innovative system – called Carbon Drive™ – features a carbon fiber reinforced belt with teeth for maximum durability and true bike performance. Over time, this has transitioned from a novelty system to a mainstream solution used on hundreds of outdoor bike models today.

User size Range: 4'11" to 6'8" (150 cm to 203 cm)

Q-Factor: 168 mm

Bottom Bracket: Oversized ISIS

Flywheel Weight: 36 lbs (16 kg)

Shipping Weight: 112 lbs (51 kg)

Standard Pedals: Double Link

Optional Pedals: Schwinn Triple Link™

Available Consoles: MPower™ Echelon2 with optional power meter, Schwinn Cadence Pro computer

OUR FLAGSHIP INDOOR BIKE IS IN A CLASS BY ITSELF.

Schwinn® launched a phenomenon with the first production bike designed specifically for indoor cycling over 20 years ago, and we continue to build on the legacy of the most experienced brand of indoor group cycling bikes. Our flagship bike, the A.C.™ Performance Plus, was designed to enhance rider comfort with micro adjustable seat and handlebars, a wider step-through and durable, covered stretch pads – all surrounded by a rust-free aluminum frame. With the new belt-based drive system that combines the maintenance-free durability and performance of a belt with the authentic-ride feel of a chain, it's on the cutting edge of the indoor cycling industry. Add to this feature-set the smallest foot print of any commercial group cycling bike, it allows for the most usage of the cycling studio floor space.

Length: 54 in (137 cm)

Width: 21 in (53 cm)

Height: 51 in (130 cm)

User Weight Capacity: 300 lbs (136 kg)

Product Weight: 102 lbs (46 kg)

SKUs:

Quantum Silver Frame: 100190-79

White Frame: 100190-25
